

## WORKERS OBEY STRIKE ORDERS

Large Interests Center Around the Mill at Monessen.

## IT HAS NOT CLOSED

Shaffer Declines to Talk Arbitration for the Present.

## 80,000 MEN ARE OUT

Pittsburg, Pa., July 16.—Development in the tin and hoop mill strike now depend wholly on the situation at Monessen, Pa., and possible action of the Tin Plate Workers' Protective association, which is composed of men who finish tin plates. The Monessen mill is the only tin plate mill not tied up. If the work of the organization there progresses and the plant is tied up it will be a serious blow to the trust. If the tin plate protective workers line up with the Amalgamated association another great victory will have been won but there are rumors that the tin plate workers will not assist the Amalgamated. President Powell of the tin plate workers, informed Shaffer this morning that his organization is in hearty accord with the Amalgamated.

At Least Eighty Thousand Out The estimated number now affected by the strike now shows that at least eighty thousand are out. This number will be largely increased before the end of the week. Shaffer stated today, that for the present, at least, he would decline to discuss arbitration and would neither deny nor affirm current reports to the effect that the manufacturers have offered to arbitrate.

Hundreds of Men Out of Work Pittsburg, Pa., July 16.—Fifty thousand men in the sheet steel, steel hoop and tin plants of the country—50,400 in exact numbers—are idle as the result of the strike against the United States Steel Corporation. The figures are: Number of men idle, 50,400; loss in wages, one day, \$206,000; sheet steel mills open, four; tin plate mills open, one; steel hoop mills open, one.

Elwood, Ind., July 16.—The strike order in the tin plate mills of the American Tin Plate trust was obeyed by all employees. The men in the Anderson and Middletown mills also obeyed the strike order.

Niles, Ohio, July 16.—As a result of the strike order issued by the Amalgamated Association the 800 men employed by the American Tin Plate company here did not report for work. The plant of the American Sheet Steel Company here has been closed since July 1, but preparations have been under way for an early resumption of work. Now, however, the men, it is said, will not return until the strike is settled. About 1,000 men are employed at the plant.

Chicago, July 16.—Over 1,000 iron-molders employed in the foundries of Chicago and vicinity have gone on strike. They are members of the Iron-molders' union, by which organization the strike was ordered yesterday. Through the influence of the union, it is expected 400 more will be induced to join the strike before the end of the week, thus closing down every foundry in the city.

Cleveland, July 16.—Between four and five hundred men employed at the Crescent Tin Plate Mills in this city obeyed the strike order of President Shaffer, and as a result the plant is practically idle. The Crescent is the only plant in Cleveland affected by the strike order. It is controlled by the American Tin Plate Company.

Coshocton, O., July 16.—The strike of the Amalgamated Association has no effect here. The tin plate mill was dismantled by the trust some time ago and is not in operation.

Youngstown, Ohio, July 16.—Not a wheel was turned during the day in any of the plants of the American Steel Hoop Company or American Sheet Steel Company in Mahoning Valley. The sixth district is the strongest numerically in the Amalgamated Association and the men are a unit in observing the strike order issued by President Shaffer. The steel hoop company has five plants in Youngstown, Girard, Warren and Greenville, and the sheet steel combine has four in Struthers and Niles. All are organized. Vice President Ward Sunday organized the men in the new four-mill plant of the Niles Iron and Sheet Company. In this valley 7,500 men are directly or indirectly affected by the strike.

Cumberland, Md., July 16.—None of the men employed in the American Tin Plate mills at this point reported for work, and the mill is shut down. The strike affects about 200 people in Cumberland. The mills of N. & G. Taylor, which are not connected with the tin

plate combination, started up after an idleness of two weeks.

Pomeroy, Ohio, July 16.—The effect of the iron and steel workers' strike has reached this city, throwing 300 men out of employment at the Pomeroy works of the American steel hoop company. The mill did not start its fires today.

Anderson, Ind., July 16.—The strike in the tin plate mills has been inaugurated here. All members of the Amalgamated association obeyed the strike order and the mills are closed. Five hundred men are idle here. The mills at Middletown, Ind., are shut down by the strike.

Wilmington, Del., July 16.—The striking machinists of the Harlan & Hollingsworth company, to the number of 110, returned to work this morning in accordance with the agreement reached, an advance in wages of \$1 a week for those who had been receiving \$13 a week or over and fifty cents advance for those who had been receiving under \$13. The men work fifty-six and a quarter hours a week during the Saturday half-holiday season and sixty hours a week during the rest of the year.

## WISCONSIN TOWN NEARLY WIPED OUT

Disastrous Fire Breaks Out at Veefkind—Residence Portion Saved Only By Heroic Work.

Marshfield, Wis., July 16.—The village of Veefkind, six miles west of here narrowly escaped total destruction by fire today. The fire started in the yards of the Veefkind Manufacturing Co., destroying over \$8,000 worth of finished stock and scorching the mill badly. Assistance was called for from this place and loyal citizens and firemen succeeded in stopping the fire before it had done much damage to the residence portion of the town.

Winnerholm murdered his sweetheart, Emily Adolphson, two years ago near Jamestown. He cut her throat and threw her body into the river. He was tired of her.

His Excellency Too Ill to Attend the Dedication of the Wisconsin Building at Buffalo.

Madison, Wis., July 16.—[Special.]—Governor La Follette will not accompany the other state officers on the trip for the dedication of the Wisconsin building at Buffalo on July 27. While it is expected he will be out by that time, his recovery from his illness is very gradual, and by his physician's direction he has abandoned the idea of making the trip. ## TUCKER KIDNAPS HIS OWN CHILD IN ORDER TO SECURE HER MONEY

Mrs. Watson, the Child's Aunt and Guardian, Is Visiting Her Sister, Mrs. George Dopp, of This City, When Deed Is Done.

While Mrs. A. F. Watson and her nephew, Master Adelbert Tucker, were enjoying themselves at the home of Mrs. Watson's sister, Mrs. George Dopp, 157 Terrace street, Sunday morning, there were exciting times going on at the Watson home in Chicago. Little Winifred Tucker, niece and ward of Mrs. Watson, was kidnapped by her own father, Freeman J. Tucker, but was later recovered by detectives.

Freeman J. Tucker married a sister of Albert F. Watson, of Chicago, and when she died it was her request that her brother and his wife take her two little children, Winifred and Adelbert. The children's father is a painter and strongly addicted to drink. Mr. and Mrs. Watson were legally appointed guardians of the children. When Mrs. Watson came to this city, two weeks ago, to visit her sister, Mrs. Dopp, she brought her little nephew with her but left her niece at home with Mr. Watson. Recently through the death of a relative Mr. Watson received a legacy of \$10,000 and his deceased sister's share was bequeathed to her children, who, by the will, receive \$5,000 each. Since then the father has been very anxious to get hold of the children.

## ALL WICHITA PRAY FOR NEEDED RAIN

Prayers of the Kansas People Are Answered, Followed by a Great Public Demonstration.

Wichita, Kan., July 16.—In all the city churches Sunday prayer was offered for rain. Wichita seldom prays, but two months of torridity had rendered the population pliable and ready to test any expedient.

Today the rain came. It came in torrents and all the residents turned out to welcome it. Bareheaded men, barefooted children, singing, shouting and rejoicing, marched through the swimming streets, headed by a brass band. Bells rang and whistles blew.

The immense parade finally brought up at the cathedral, where a thank offering service was extemporized. The jubilation extended far into the night. As soon as the rain ceased falling anvils were fired and fireworks touched off. Tonight the skies are heavily banked with clouds, promising more rain before morning. That which fell today will be of vast benefit to crops, orchards and failing wells and streams.

Reports from surrounding towns within 100 miles are to the effect that rain was general in southwestern Kansas, but none is reported in the short grass country and eastern or northern Kansas.

## FIREMEN STRIKE PERHAPS TONIGHT

One Hundred Thousand Men and Boys Likely to be Thrown Out of Employment.

Scranton, Pa., July 16.—It now seems no doubt that the mine firemen will strike this evening, as bosses have practically declared that they will not grant the men's demands. The widespread effect of a probable tie up in the anthracite mines is beginning to make itself felt in the business circles. The majority of the mines throughout the anthracite regions may be closed down soon after the strike is declared and conservative estimates place the number of men and boys who will be thrown out of work as one hundred thousand. Firemen employed around mills, public buildings and private residences may also join in the strike.

Strike Was Declared Today Wilkesbarre, Pa., July 16.—In accordance with their promise unless demands granted stationary mine firemen refused to work this morning and in consequence nearly all the mines shut down today and from 25,000 to 28,000 out of work. The men in the Scranton district expect to go out this evening.

## WAS PROSTRATED BY THE HEAT

Charles L. Gums Is Overcome and Results Are Nearly Fatal

Charles L. Gums, proprietor of the Windsor hotel, was prostrated by the heat this morning and for a time was in a dangerous condition. He was much better this afternoon. Unless the weather clerk sends relief pretty soon many other prostrations are apt to be reported. A delivery horse, yesterday afternoon, in front of the Douglas school, as a result of the extreme heat, fell dead in the harness.

## MAMMOTH PEARL IS FOUND.

Largest Gem Yet Taken From Mississippi Discovered in Clam.

Prairie du Chien, Wis., July 16.—Pearl fisheries hereabouts maintain an enviable reputation and promise to make the town famous. Last week no less than three discoveries of pearls, worth from \$300 to \$500 each, were reported, besides many smaller ones, but today the climax was capped by finding the largest gem yet. It weighed 139½ grains, and is the size and shape of a chocolate drop. The owner as yet refuses to put a price on it.

## MAY BRETONNE IS GIVEN A DIVORCE

The Former Well Known Repertoire Actress Accuses Her Husband of Being Unfaithful to Her.

Milwaukee, Wis., July 16.—Judge Halsey yesterday granted a divorce to Mrs. May B. Weinhold from her husband, Frank M. Weinhold. The plaintiff, who was formerly known as an actress, wept quietly as she detailed her husband's alleged shortcomings, including his alleged infatuations for a Philadelphia widow and a certain fair Milwaukeean. To both of whom the wife stated Weinhold had given presents of valuable jewelry, besides keeping them well supplied with such minor luxuries as flowers and candy. Worry over her husband's conduct undermined her health, Mrs. Weinhold declared, and while she was seriously ill the defendant showed his indifference to her welfare by keeping a window of her room open against protest. The only other witness heard in the case was Mrs. B. J. Phelps, a friend of Mrs. Weinhold. Judge Halsey granted the decree without hesitation as Weinhold made no contest.

## SPOKE HARD WORDS AT FUNERAL RITES

Rev. Clarence C. Miller, an Indiana Preacher, Denounces Most Vigorously Dead Congressman.

Bluffton, Ind., July 16.—At the funeral of the late Congressman A. N. Martin, held yesterday in the First Presbyterian church, Rev. Clarence C. Miller, the pastor, uttered remarks in the course of his sermon that have created a sensation. During the service the widow and daughter asked to be taken from the church.

"It would have been far better," said Rev. Mr. Miller, "if Mr. Martin would have been shot on the field of battle than to have lived to lead the life he did. He was in public office the better portion of his life, and made in one office \$100,000, but was sent home for burial in a cheap pine coffin furnished by the government. His life has been a tragedy, and the use of liquor has made it so."

## A FIRE AT WICHITA CAUSES GREAT LOSS

Loss is Estimated at \$800,000—Three Employees Injured by Falling Walls, One Seriously.

## IS CHARGED WITH BIGAMY

Aged Man accused of Having Seven Wives Faints When Arrested

Philadelphia, Pa., July 16.—Joseph Cramer, aged 75, is under arrest here charged with having seven wives, all of whom, it is declared, are living.

When the warrant was served Cramer fainted. All efforts to resuscitate him were unavailing, and he was taken to the Cooper hospital in the patrol wagon. There it was found that he was suffering from heart failure and he was pronounced to be in a critical condition. The man says that all of his former wives are dead, although he doesn't know how many there were. He admits that he has been married many times.

## MUST FIGHT FOR BEQUEST.

Mrs. Allen Will Be Antagonized by the Lorillard Heirs.

New York, July 16.—The heirs of Pierre Lorillard will do what they can to prevent Mrs. Allen, the friend of the dead millionaire, from securing her bequest of Rancocas farm. An alleged interview with T. Sufferin Tailor, Pierre Lorillard's son-in-law, which the latter, however, denies, contained the following:

"It is hard to talk about this matter. Mr. Lorillard is hardly cold in his grave, and here is a woman, strange to us, inciting the newspapers to sensational headlines about mystery and things that could be so much better left unsaid. There was no mystery in the case. There is no mystery in it now. Pierre Lorillard was Mrs. Allen's friend for years—so much her friend that she will not have legal ground to stand on when she comes to formally claim Rancocas. She will be made to give it up."

Pierre Lorillard's son is, it is understood, already negotiating with Mrs. Allen to keep Rancocas in the family. It is believed that a tempting sum has been offered to her to relinquish her claim.

Mrs. Allen is out of two and the servants in her palatial home at 11 East 31st street, the gift of Mr. Lorillard, deny any knowledge of her whereabouts. Ross Bump is at Lake Koshkonong.

## WILLIAM P. LYON GIVEN A PENSION

President of State Board of Control Allowed \$12 Per Month.

## ON ACCOUNT OF AGE

To Establish Right Had To Prove He Performed a Marriage.

Madison, Wis., July 16.—[Special.]—Judge W. P. Lyon, president of the State Board of Control, and ex-chief justice of the supreme court, was notified yesterday of the allowance of \$12 a month by the government as a civil war veteran.

## IT WAS UNSOUGHT

In order to establish his right to the pension the Judge had to prove that in 1846 he married ex-Sheriff George Wylie and wife of Elkhorn, Walworth county. This was necessary in order to establish the judge's age. The pension was granted under the act pensioning veterans who have reached the age of 75, who are incapacitated for manual labor. Last winter the pension department ruled that any man 75 years old is incapacitated from manual labor. Judge Lyon is 77, but he found it hard to prove the absolute truth of this according to the requirements of the pension department.

Secretary Tappins of the board of control, who first called the judge's attention to the fact that he was entitled to a pension, learned that in early days he had been a justice of the peace in Walworth county. He wrote to Register of Deeds Barnes, who looked up the records and found that in 1846 he had married Mr. and Mrs. Wylie, and secured a certificate to that effect. This was forwarded to Washington by State Pension Agent E. B. Gray, and the pension was granted.

Judge Lyon made no effort to secure the pension himself, but when asked if he would sign an application if it was filled out replied that while he did not absolutely need the money, his grandfather had been a pensioner of the war of the revolution, and his father a pensioner of the war of 1812 and he would like to complete the family record. He went to the civil war as captain of Co. K, Eighth Wisconsin Volunteers, in 1861, and a year later was promoted to the command as colonel of the Thirtieth Wisconsin. After the war closed he was brevetted a brigadier general.

## BREWERY FIREMEN WANT SHORTER DAY

Thirty-Two Firemen of the Chicago Breweries Quit Work—May Result in Beer Famine.

Chicago, Ill., July 16.—Industrial war broke out in a new direction on yesterday forenoon in Chicago. At eleven o'clock the firemen employed in thirty two of the breweries struck for an eight hour day and recognition of the union. A beer famine may follow. Some of the breweries were willing to accede to the demand of the union for a shorter work day, but they refused to sign an agreement, and the men believed that when the busy season was over they would be again required to return to a twelve hour day.

A conference was held in the afternoon between the representatives of the Chicago and Milwaukee Breweries' association and the International Brotherhood of Stationary Firemen but they failed to agree, and the breweries are practically tied up. Another conference took place this morning at 10 o'clock, at which time the brewers promised to give the firemen a decided answer as to whether they will sign an agreement with their employees. Should the strike last the engineers' and brewery workmen's unions may be drawn into the fight, and with the temperature in the nineties beer-drinking Chicagoans do not regard the outlook as particularly cheerful.

## DROUGHT HAS NOT RUINED ALL CROPS

Oats on J. Donohue's Farm Have Triumphed Splendidly Over the Continued Dry Spell.

J. Donohue, who lives about two miles west of the city on the Center road, is exhibiting samples of oats cut from a field of a number of acres which give evidence that the drought and heated spell have not ruined all of the crops in the county. This lot of oats stand up three to four feet high and are heavy and well filled. Mr. Donohue has been several years experimenting with seed and has finally struck in what he calls the Dewey seed that seems to stand the dry weather and gives a splendid yield.

Afton, July 16.—The program to be given by Miss Lora Wolcott and Miss Iva Allen at Brinkman's hall tomorrow evening is as follows: Boon, Miss Wolcott and Miss Allen; The Road to Heaven, Miss Allen; The One-Legged Goose, Miss Allen; Virgilus, Miss Allen; To the Lions, Miss Wolcott; The Painter of Seville, Miss Allen; So Was I—a Life Lesson, Miss Wolcott; The German Band, Misses Wolcott and Allen. Admission will be ten cents for children under ten years of age and fifteen cents for adults.

Farmers in this vicinity began cutting their oats the latter part of last week, some putting them up for fodder, while others will thresh the crop and get what they can that way. Corn has done very well thus far, considering the lack of moisture, but the terrible heat is beginning to tell on that important crop and unless rain comes soon it will be a total failure. As for tobacco, well, to use a common expression, the acreage in this vicinity "looks like thirty cents." Some farmers expect to begin threshing this week.

A good congregation listened to Rev. Howland Hanson, the popular Beloit pastor, at the Baptist church last Sunday evening, and his auditors were not disappointed, for he delivered a sermon full of interest and power. He will preach again next Sunday evening at 8 o'clock and everyone is cordially invited to hear him. Other services will be held as usual, Y. P. S. C. E. at 10:30; Sunday school at 11:30 a. m.; and Junior endeavor at 3:00 p. m. It is expected that the Sunday evening service will be held during July and August, as union services at Afton, which he kindly plans to do.

Following the stealing of the team belonging to H. L. E. Tripp last spring, the question of organizing an anti-horse thief association was agitated to some extent, and a copy of the constitution and by-laws governing the Beloit society was secured to assist in the proposed formation of one here. No further steps have been taken up to the present time, but now a meeting has been called for next Saturday evening at 7 o'clock, at which the matter will be discussed and an organization perfected if thought advisable. The meeting will be held in Brinkman's hall prior to the Woodman meeting, and all interested are urged to attend.

Supervisor A. C. Powers, of the town of Beloit, was in town Monday, and stated that he expected to have "Glenwood Farm" connected with the outer world by telephone, as he is negotiating for the construction of a line to connect him with the Badger State long distance system. Mr. Powers is one of those progressive farmers who are beginning to realize that the telephone is a convenience which it will not do to be without in this age of commercial activity.

Section foreman Edward Hammed and his men are engaged these days in burning over the right of way along the C. & N. W. Ry., thus lessening the danger from locomotive sparks. Foreman Howard and men have been performing a like service between Afton and Janesville. with what they passed through in that state. The party expected to spend Sunday in Sat Lake City, where a monster meeting was to be held in the great Mormon tabernacle.

### LEYDEN.

Leyden, July 16.—The farmers are all busy, haying.

Tobacco is reported to be much less than one-fifth of a crop, an exact estimate being impossible. Growers state that it is past tobacco growing time for the season and that tobacco will not reach anything like a good maturity now, no matter how good growing weather should come, and they state that the tobacco crop for year will be a total failure.

Oats are beginning to turn white and to die from the drought.

Some farmers are cutting their oats and many others will begin harvest Monday next.

The well at the stock yards was completed today. Leyden stock yards are to be completed next week, then we will be ready for the shipment of stock.

A carload of soft lump coal came in for Donkle and Shaw Thursday.

A carload of middlings for Donkle & Shaw arrived Friday.

Joe O'Neill was drawing coal to Leyden creamery and also to Bagle creamery today.

Conrad Hansen visited his home at Brooklyn Friday.

## NEW SWITCH YARD IS READY FOR USE

Mineral Point Division of the Chicago, Milwaukee & St. Paul Road Is Well Equipped.

The new switch yard of the St. Paul road, located on the Mineral Point division, near the round house, is now completed and was put in service this morning.

The new yard consists of five sidings, each capable of holding eighty cars, with all the necessary switches and cut-offs. It will fill a long felt want on that part of the St. Paul road and give them the room for handling cars that their rapidly increasing business demands.

The city will also derive considerable benefit from the new yard, as it will take a large part of the switching now done between Pleasant and Jackson streets away from these crossings. The yard is a model one of its kind and a credit to the road.

### An Interesting Fact.

The human system contains about three gallons of blood. Every drop of it is filtered through the kidneys every ten minutes. Just think what a tax this incessant filtration becomes upon one's kidneys. Is it any wonder they become impaired before we reach old age?

Dr. Crane's Quaker Tonic Tablets are compounded from natural kidney specifics and the action of this medicine is absolutely different from any other known. Quaker Tonic stimulates the normal action of kidneys and liver at the same time, and is the most satisfactory kidney remedy. All druggists; 50 cents a box.

SCHOOL BOARD IN SESSION

No Business of Importance Came Up for Consideration.

The board of education held a brief meeting last evening, but as there was nothing of importance to be considered, the commissioners adjourned, after allowing some bills and transacting other routine business.

## Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I felt bad all over. I took Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh."

**WISCONSIN WEATHER FORECAST**  
Probably thunderstorms tonight, continued warm.

For many years Janesville clamored in vain for better rail- way depots. Then the C. & N. W. company built a new one, and all the criticism fell on the C. M. & St. P. company. Now the C. M. & St. P. company wants to build a handsome new passenger station and also a new freight depot, but the common council says "No." The people want these depots as much as the railway company wants them, and the criticism that has for years fallen on the St. Paul company, now falls on the city officials. "There are none so blind as those who will not see," so there is no use in talking to these officials. All that can be done, apparently, is for the people to wait for their terms to expire. In the meantime, however, the people should see to it that the council lives up to the law as strictly in all things as it does in the railway matter. If any alderman is illegally in the pay of the city, or if any alderman is interested in any city contract, or if any official neglects his sworn duties the charter provisions should be enforced. Leniency on one hand and rigidity on another should not be permitted. Let full justice be done all concerned.

Two thousand years ago one of the great- est generals and Birthday writers was born; The academic world is still debat- ing whether he was the greatest mil- itary genius or Napoleon or Hanni- bal. But we are more concerned about the legacies Caesar has left the world than about the man himself. If it had not been for him we would have no July; and our calen- dar, with a few corrections, remains as he left it.

The Czar of all the Russias and the Kaiser of the Germans, whom he whipped, are called by his name. His coming into this world gave the doc- tors the Caesarean operation. The work he did never had to be done over again; the boundaries he set remained so long as the empire lived; he established peace and prosperity for his nephew through a longer pe- riod than he had ever before known. His commentaries, and especially the description of his bridge have for years tried the brains of the erudite- cent youth.

Caesar has left his marks on this old world of ours which remain even after the lapse of 2,000 years.

Racine people think it strange that wealthy J. Kutzberger, of that town, prefers to dwell in a barn with his chickens, ducks, tame pigeons, rab- bits and rats. "Everyone to his or her taste," as the woman said when she kissed the cow—to quote Billy Rice—but most of us prefer to dwell among the bulls, bears, jackasses, fools, knaves, drunkards, gamblers, blacklegs, wisemen, model citizens, lobsters, etc., etc., etc., composing the population of the earth.

Frank and Paul Butler, brothers, of Carnegie, Pa., while shooting craps quarreled over five cents. Paul declared that the game had reached a point where friendship, family ties, etc., no longer counted, where- at Frank shot his head off with a re- volver. Craps appears to be a very bloody game, especially when a seven shooter is used.

Dowie has gone to his Zion city with 200 carloads of tents and supplies preparatory to selling the lots at auction, and founding his ideal city. Whether it will be successful, finan- cially, remains to be seen, but there will always be found enough cranks in the world to believe in such men as Dowie and his religion.

New potatoes are imitated in Colo- rado and brought to market two months before new potatoes can be grown. Since the days of the wooden nutmeg, there has not been such a good artificial food product, deceiv- ing even the best informed.

What would the carpenters say if the contractors demanded that they work ten hours for nine hours' pay? Yet the carpenters demand ten hours' pay for nine hours' work. Is it not a poor rule that will not work both ways?

Illinois whitecaps whipped a wife beater named Potts the other night, although Potts resisted and told the whippers they were no better than

he. This appears to have been a genuine case of the Potts calling the kettle black.

Pres. Hall has aroused the teach- ers of Detroit by his statement that college women are unfitted for the duties of wives or mothers. It would be interesting to hear what the edu- cator thinks of college men.

That story about the finding of the skeleton of a mastodon over in Mich- igan is probably only designed to hold us awhile pending the announce- ment of the annual failure of the peach crop.

The Hon. "Pop" Anson is likely to again take charge of the Chicago National League club. He has old Neptune cheated when it comes to withstanding the ravages of time. "Pop" is all right.

The Beloit common council isn't in it with the Janesville common council when it comes to nagging railways and preventing them from improving the town.

A Chicago lawyer, named Hitt, has been arrested on the charge of wife beating. Mrs. Hitt says Hitt Hitt her repeatedly and she won't stand Hitt any longer.

A tiger in a New York zoo was overcome by the heat the other day and threw a fancy fit. The Tam- many tiger, however, has not yet been prostrated.

The Ohio Bryanites now propose to occupy the position recently vacated by the gold democracy. They will put a free silver ticket in the field.

The greatest trouble with a third party is that it always remains third. The Ohio democrats were evidently Sir Alfred Austin has made Homer blush, in his latest poem on Poly- phemus and Galatea.

The Russian Czar now proposes to allow the Finns to swim out. Good idea, Nick.

## CHIPS FROM OTHER CHOPPINGS.

Amuses the Journal.

The Milwaukee Journal thinks it is "amusing to witness the antics of the Madison Journal, official Half-Breed, in its effort to capture Senator Whitehead."

Did Mr. Usher See Them?

The Milwaukee Journal, whose staff correspondent is now in Kan- sas, finding out about populism, makes this remark:

"Even though the sun is burning up the crops in Kansas, please re- member that chickens lay eggs as big as beer kegs and have whiskers on their legs in Kansas."

Joys of Stalwartism.

Appleton Post, Stalwart Rep.: The La Crosse Chronicle does not agree with Willie Shakespeare. It believes that "there is a heap in a name." For instance, it says, "Almost any- body would rather be called a 'Stal- wart' than a 'Half-Breed.'" But that's nothing to the satisfaction of actually being a "Stalwart" rather than "Half-Breed."

A Slap at Uncle Ike.

The Madison Journal, official Half-Breed, sometimes kicks over the traces, as witness:

"If the Stephenson cloud gets larger than a man's hand in the Mar- nette quarter some of us will be called upon to speak out in meeting."

Waukesha is Stalwart.

The Waukesha Dispatch, democrat- ic, sizes up the local situation as fol- lows:

"His excellency need not figure on any delegates from Waukesha county in the next convention whether or not 'Long' Jones is a guber- natorial aspirant. If Jones is a can- didate he will secure the delegation, and if he is not the delegates will not be for La Follette. The local Stal- warts are united, and their suprem- acy is an easy prediction when they really undertake to carry the county and start in time as they are sure to do next year. Several original La- Follette men who helped amazingly in the fight a year ago, and have since failed to realize on their expecta- tions, will help out the Stalwarts in their hustle next year to control the county. Gov. La Follette has not only been disappointing himself, but he has disappointed and alienated some of his most active supporters."

Japan and California Compared.

Although Japan is smaller than Cal- ifornia, and only one-twelfth of her area is cultivable, it has a population of 44,000,000.

## BUSINESS MEN MEET PROMOTERS

An Enthusiastic Meeting of Business Men Held Last Night at the Hotel Myers.

An enthusiastic meeting of busi- ness men was held at the Hotel Myers last evening to look over the pros- pectus and listen to the proposed plans of the Burr Lithia Springs com- pany with a view of subscribing for stock. There was not a large num- ber present for the reason that very few of the business men knew that there was to be a meeting.

F. J. Tucker, of Chicago, one of the leading spirits in the enterprise, was present and gave detailed state- ments of what the company expected to do and where they proposed to erect the different establishments. It was the opinion of those present at the meeting that the stock was a good investment and the most of them declared their intention of tak- ing stock in the new concern. These gentlemen went into the plans of the company very thoroughly and believe they are all right.

Before the meeting adjourned it was decided to meet again next Mon- day night at the same place when a subscription list will be opened. It is estimated that at least fifty thou- sand shares can be placed in this city. The promoters are giving the people of this city a chance to get into this deal on the ground floor as they are assured that they can place the en- tire block of stock with outside par- ties.

The meeting next Monday night will be open to all and it is hoped it will be largely attended by all who have the best interests of Janesville at heart.

A party of Chicago business men will come here next Sunday and in- spect the property. Some of the party will be gentlemen that were unable to come up last Saturday and they will be accompanied by others in- terested. Those present at last eve- ning's meeting were: J. M. Bost- wick, Michael Hayes, F. C. Cook, O. F. Nowlan, W. T. Vankirk, J. J. Cum- mingham, H. D. McKinney, D. W. Watt, Ed. Hyde, Dr. Pember, F. J. Tucker, H. H. Jackson.

Steyn Escapes from British.

London, July 16.—The war office has received the following dispatch from Lord Kitchener, dated at Pretoria:

"Broadwood's brigade surprised Reitz, capturing Steyn's brother and others. Steyn himself escaped in his shirt sleeves, with one other man only. The so-called 'Orange River govern- ment' and papers were captured. Ac- cording to further advices from Lord Kitchener the columns of Col. Feather- stone and Col. Dixon have reached Zeerust, western Transvaal. They met with opposition and made some cap- tures. The British casualties were one officer killed and three officers and twenty-four men wounded."

Rome, July 16.—Unconcealed alarm exists at the Vatican over the Italian government's decision to consider the status of the Italian religious associa- tions and particularly the educational establishment.

McMacklin, instantly killing Mrs. James Huff, her daughter, Mrs. Thornton, and the latter's 4-year- old daughter. Mrs. Huff's daughter, Myrtle, aged 16, and another child of Mrs. Thornton, aged 7, were seriously injured.

COUNCIL TONIGHT.

Mr. McLean is here in the interests of Laboring Men, and will try to adjust the Carpenters' Strike—Conditions in the Local Strike Remain Unchanged.

A special meeting of the Trade's Council will be held at Assembly hall tonight and a large attendance is desired. The meeting will be addressed by N. R. McLean, of Springfield, Ill., general organizer for the American Federation of Labor, who is in the city and will remain here for about two weeks. During his stay Mr. McLean will visit the different labor organizations and try to put them on a sound basis.

Mr. McLean did not come here on account of the carpenters' strike and in fact, knew nothing of it until this morning. He had not examined into the facts of the case as yet, but said that he understood that the carpenters' union was a new organization, and liable to do some things that an older body would not do. He will probably see some of the delegates of the carpenters' union this evening and talk the situation over with them.

In talking of the strike question at the present time, Mr. McLean said: "This weather has a wonderful influence over men. They are hot-irritable and wrought up, and a thing that they would pay no attention to under ordinary circumstances, now rises them up and causes them to do things and say things that ordinarily they would not."

Mr. McLean just spent several weeks in Milwaukee in the interests of the strikers there, and is now working away from Milwaukee towards the South. He expects to go to Birmingham, Ala., but not until the weather cools off some.

The situation concerning the striking carpenters still remains the same. No man has a full force of men employed except the contractor on the St. Mary's church work. Both sides claim to be in the right. The carpenters claim that the contractors turned them out without notice. The contractors claim that they were notified that a nine hour day would be expected and would be enforced Monday. As they were not willing to grant the demands of the men the only thing they could do was to let out all those who did not care to work.

Those who wanted to work are still working and have not been molested. How long the situation will continue no one is able to tell although many of the men claim that they are willing to do the fair thing.

Mr. McLean may be able to do a great deal towards the settlement of the difficulty while in the city if called upon to do so.

## DECORATED WITH ELECTRIC LIGHTS

Christian Young People's Union Gives  
Patrons of Social Pleasant  
Surprises.

Strings of colored incandescent lights made the Baptist church lawn look like a bit of fairy land last evening. Bulbs of many colors were alternated effectively and the rainbow hued lights made the prettiest out-of-door decoration that could possibly be used for an evening social or party. Last evening was the first time electricity had been used for lawn decoration in this city but the result was so artistically beautiful that it will doubtless not be the last. It was not only successful from an artistic standpoint but from an utilitarian, as well, the lights illuminating the lawn very brilliantly.

This innovation in decorative and lighting effects was introduced by the Christian Young People's union, an organization including all the Christian Endeavor societies and Epworth Leagues of the city, at their lawn social last evening. Another delightful innovation, with which the young people pleased their patrons, was a series of stereopticon views shown on a large screen which was placed out of doors by the side of the church. The views were exhibited by the Rev. Robert C. Denison and were mostly of scenes in foreign lands. They were very fine and were seen by a large and appreciative audience.

During the evening ice cream and wafers were served at long tables on the lawn, members of the Christian Young People's union officiating as waiters. The patronage was very liberal, everyone present had a pleasant time and the social was a most enjoyable success.

## GOLF TOURNAMENT PRIZES HANDSOME

Four Cups, a Stein and a Medal  
Worth \$2.25, Shown by Hall,  
Sayles & Fifield.

Prizes for the golf tournament to the value of \$225 are displayed in Hall, Sayles & Fifield's window. They consist of four handsome cups, a stein and a gold medal, and are the gifts of the Sinissippi Golf club.

The prizes would be a credit to a club much more pretentious than the Sinissippi club. There is no entry fee charged for any of the events, so that they are a direct donation by the club with no expectation of any returns.

Foremost among the prizes is the state championship cup which is in the form of a loving cup with three handles. It is seven inches high, of solid silver, gold lined and finished in dull gray which gives it an exceedingly handsome and rich appearance. On one face there is a bunch of clubs, a ball and tee, hole marker and distance flag in raised work. The flag being blue with the letters S. G. C. for State Golf Championship in gold. There is a golf scene in colored enamel. On the reverse side is engraved: State Championship Cup, Wisconsin Golf Association, presented by Sinissippi Golf Club, Janesville, Wis., July, 1901.

The winner of the state cup, which can only be kept for a year, gets a handsome gold medal, beautifully lettered in black enamel.

The second prize in the main event is a loving cup seven inches high of early English design, with an irregular shaped top and is gold lined. This is also handsomely engraved.

The first prize in the consolation event is a beauty of a silver cup about six inches high and gold lined. The second prize is a silver stein having a plate glass stein which is also a handsome trophy.

The prize for the best score in the qualifying round is one of the handsomest cups in the lot. It is a regular prize cup, with handles ornamented with oak leaves in relief. It is gold lined and is about six inches tall. The player who puts up the score that wins this prize will have a trophy that was worthy of his efforts.

Secretary Baker this morning received an entry from Louis Allis, the crack Milwaukee Country Club player, and one from Robert Hixon of the La Crosse club. The members of the Sinissippi Golf club are much disappointed with the number of entries received from Milwaukee, as it was expected that there would be at least six from that city.

Outside of being terribly dry the grounds are in good shape, but the grass is so near gone that it takes a large amount of water to do any good.

The tournament commences on Thursday morning and some fine games should be developed during the week.

## AT BAND CONCERT AND LAWN SOCIAL

Many People Enjoyed Both Attractions  
Which Made an Admirable  
Combination.

The vicinity of the Court House park was the most popular place in the city last evening and crowds of people gathered there until a late hour. People on foot and in carriages found a double attraction in the concert given by the Imperial band in the park and in the social given by the Ladies of the Maccabees on the lawn belonging to the public library property, just across the street from the stand from which the band boys were discoursing sweet music.

The lawn was handsomely lighted with decorative lanterns and the small tables at which ice cream and cake were served were kept well filled. Many gallons of ice cream were disposed of and the members of the society who waited on the tables were kept busy serving their patrons.

During the evening a handsome quilt was raffled off and was drawn by Mrs. J. F. Spoon, who held the lucky number. The social was a pleasant and a gratifying success and the members of the society under whose auspices it was given have reason to be proud. They are to be congratulated on choosing a night when there was a band concert to attract people to the park. The excellent concert program given by the band added much to the pleasure of those who attended the social in addition to entertaining hundreds of people who gathered in the park. The band never played better and their music was greatly appreciated.

These out-of-door concerts on summer evenings are as popular as they deserve to be and the Imperial band is entitled to much praise and substantial gratitude for the pleasure which they give the people.

## HEART-SICK.

There are a great many people who have heart sickness, who have no chronic derangement of the heart. When the stomach is diseased it may affect many other organs, and produce all the evidences of diseased heart, diseased liver or kidneys, or disease in some other organ. The inexperienced practitioner treats the wrong disease, and hence the constant statement of Dr. Pierce's correspondents: "Doctors could not help me."

Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and organs of digestion and nutrition. It increases the assimilative powers, and purifies and enriches the blood. When diseases of organs remote from the stomach are caused by the stomach, the cure of the stomach results in the cure of the other diseases, in heart, lungs, liver, kidneys, etc.

"Six years ago my stomach and heart troubled me so much I had to do something," writes Mrs. S. A. Knapp, of San Jose, California, Box 392. "I went to San Francisco and had treatment for catarrh of the stomach, and was better for a time, then it came back. I then used Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' These medicines cured my stomach. I do not have the pain and indigestion as I did. It is very hard for me to tell you what I suffered before I commenced taking your valuable medicine. I recommend it to all the sufferers whom I meet."

To cure constipation use Dr. Pierce's Pleasant Pellets.

tember. The best good wishes go with them.

Miss Florence Young returned from her visit to Chicago on Tuesday while she was with her cousin, Miss Carrie Clawson in Chicago Commons the change was made to the new building which gives them better facilities for their work.

## MILTON

THE GAZETTE AGENCY.  
W. W. CLARK, Manager.  
Milton, Wis., July 16, 1901.

We clip the following notice of a Milton girl who grew to womanhood here from the Chicago Musical Times.

The ideal heads portrayed on this page are reproductions of pastel work by Eleanor G. Stetson, a Chicago artist who has won great renown by admirable work. These reproductions—attributed as they are—give after all but an imperfect idea of the exquisite beauty of the originals. Mrs. Stetson excels in dainty creations as is evidenced by the remarkable success of her "Ballet Girl," portrayed in various poses. Two of these now hang in the rooms of the Automobile Club in Steinway Hall, this city, and are greatly admired.

Mrs. Stetson's success in portrait work has brought her many orders—and her time is fully occupied in profitable engagements.

During her residence abroad she made a special feature of animal study—and her "Lion's Bride" won for her international reputation.

Mrs. Stetson's studio in the Auditorium contains many samples of her skill.

The Seventh-Day Baptist Benevolent society will hold a reception for Dr. Rosa Palmzorg of Shanghai, China, and the missionary societies of the Congregational and M. E. churches at the church doors on Wednesday afternoon.

The effects of the drought here are becoming more noticeable every day. Oats and barley will not exceed a half crop. Pastures are practically worthless and dairymen are obliged to feed their stock nearly as much as in the winter months to keep up a flow of milk. Tobacco will not amount to much unless rain comes soon and the acreage will show a decrease of nearly one-half. The corn crop is liable to be in a similar condition soon.

Rans White, who lives with a son-in-law four miles northeast of this village, is eighty-six years old, but his age did not deter him from walking to and from his home to this village in the hot sun on Monday.

The old gentleman came to Milton in 1846 and has resided here ever since.

Mrs. Oscar D. Crumb returned from Chicago on Friday evening where she recently had an operation with favorable results.

Hyron T. Plumb left Thursday for Everett, Wash., and rumor has it that he will join the matrimonial ranks there.

## CROWD TO SEE YOUNGERS.

Minnesota People Show Friendliness to Released Desperadoes.

Minneapolis, Minn., July 16.—The Younger brothers spent the day in visiting the sights of Stillwater. They dined as guests of friends at the leading hotel and spent considerable time in riding on trolley cars. There was a big crowd in the prison city today to see the Youngers and congratulate them. Many prominent Stillwater people have invited the Missourians to their homes and innumerable invitations to outings have been received. In all probability the paroled prisoners will live at the penitentiary till Aug. 1. Offers of positions have come in from all quarters, but Warden Wolf has not yet decided on their future work. It is believed, however, that they will be employed at a Minneapolis thrashing machine factory. They became skilled in this business during their stay at the prison. The Youngers will eat at the officers' mess until they are placed at work. Judging from the treatment the former desperadoes are receiving in Minnesota, they will not care to break their parole and go to Missouri.

Headaches, dizzy spells, bad blood, rheumatism, indigestion, constipation, absolutely cured if you take Rocky Mountain Tea made by Madison Medicine Co's Smith's pharmacy.

Last December Mrs. Burroughs of this city and Mrs. M. C. Martz of Arcadia filed a suit at London to establish their relationship to Phillips. A telegram just received from London says that their claims have been upheld by the court, and that Mrs. Burroughs and Mrs. Martz were entitled to an equal share with other heirs. It is estimated they will receive \$200,000 each.

## WAS WEDDED IN MONTANA.

Miss Armstrong, Formerly of This City, Becomes a Wife.

The Anaconda Standard, of Anaconda, Mont., contains the announcement of the marriage of Miss Carrie Armstrong, a former resident of this city. The announcement is dated Missoula, Mont., June 19, and is as follows:

"At noon today at the residence of Charles Bieleshimer on Poplar street, Rev. George Stewart united in marriage C. W. Tillinghast and Miss Carrie Armstrong. The wedding was private and was witnessed by a very few of the friends of Miss Armstrong. After the ceremony a wedding luncheon was served and Mr. and Mrs. Tillinghast left this afternoon for the Pacific coast. They will be at home in this city after July 1. Mr. Tillinghast is employed in the Northern Pacific general offices here, and his bride is well known throughout this part of the state, where she has resided for many years.

"Among the guests at the wedding was John Armstrong, the veteran newspaper man, brother of the bride."

D. G. Partridge, of Milton Junction, was in the city yesterday, on his way to Rockford.

E. J. Samuels returned to Darlington Monday, after a pleasant visit with his family in this city.

Ed. Bingham, of Des Moines, Iowa, was in the city Saturday night, on his way to visit relatives at Koshkonong.

The boiler explosion at Guthrie, Wis., occurred at the White creamery instead of the Russell creamery as was stated in the Gazette. This creamery has been owned and operated by Wm. Boetcher for seven years and he has made a pronounced success of it.

## Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the constitution has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by King's pharmacy and People's drug store.

Cuts and bruises are cured by Chamberlain's Pain Balm in about one third the time any other treatment will require because of its antiseptic qualities which cause the parts to heal without maturation. For sale by Peoples Drug Store and King's Pharmacy.

When you want a modern, up-to-date physio, try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at King's pharmacy and People's drug store.

## If a Woman

wants to put out a fire she doesn't heap on oil and wood. She throws on water, knowing that water quenches fire. When a woman wants to get well from diseases peculiar to her sex, she should not add fuel to the fire already burning her life away. She should not take worthless drugs and potions composed of harmful narcotics and opiates. They do not check the disease—they do not cure it—they simply add fuel to the fire.

Bradfield's Female Regulator should be taken by every woman or girl who has the slightest suspicion of any of the ailments which afflict women. They will simply be wasting time until they take it. The Regulator is a purifying, strengthening tonic, which gets at the roots of the disease and cures the cause. It does not drug the pain, it eradicates it. It stops falling of the womb, leucorrhea, inflammation and periodical suffering, irregular, scanty or painful menstruation; and by doing all this drives away the hundred and one aches and pains which drain health and beauty, happiness and good temper from many a woman's life. It is the one remedy above all others which every woman should know about and use.

## Dyspepsia Cure

Digests  
 what you  
 Eat

You might as well put fuel under a boiler without burning it and expect the engine to run, as to eat food and not digest it and expect to keep up nourishment for your body. You must have nourishment to live and when you cannot digest your food, Kodol Dyspepsia Cure will do it for you, with no aid whatever from the stomach. It contains exactly the same elements as Nature's digestive fluids and can't help but produce the same results.—David Taylor, Blind Ridge, Pa., writes:—"I have been afflicted for a number of years with dyspepsia and have tried various remedies without good results but was cured by one bottle of KODOL DYSPEPSIA CURE. I cannot say too much in its favor."
